

# WELCOME TO ONE OF BERLIN'S MOST PRESTIGIOUS HOTEL BARS

---

---

For you as our guest we would like you to join us on a journey through the history of cocktails. This menu shall give you an insight of a tradition that exists for more than 100 years now and we feel indebted to its pioneers.

Starting with pharmacists like Antoine Peychaud who developed the famous Peychaud bitter and even Dr. Johann Siegert who invented the angostura using tropical herbs. We also need to express gratitude to the seafaring that brought all kind of spirits/spirituous beverages like rum

to Europe. Last but not least we should mention a man with a protruding mustache whose creativity led to formulas and recipes that filled the first bar book "Bartender's Guide" in 1862, Jerry Thomas.

Sit back and enjoy a great variety of classic Cocktails or choose one of our homemade self created drinks. We always use freshly squeezed lemon, fresh lime juice and homemade basil- and sugar syrup.
